Reviewer's report

Title: Severity of injuries in different modes of transport, expressed with disability-adjusted life years (DALYs)

Version: 2  Date: 20 June 2014

Reviewer: Koen Putman

Reviewer's report:

The comments were addressed appropriately.
Lable for table S12, Suppl 2 reads 'Sensitivity analysis. YLDs per person with and without 92 726 injuries for which the exact injury type could not be defined. See text for details.' Should that not be '.... 76815 injuries....'

Some additional clarifications requested:
What is the reason why percentages is table S9, suppl2 have changed compared to the previous version of the manuscript (previous numbering S7, suppl 2)? Same could be said for table 10, S2 (compared to S8, Suppl 2 in the previous version).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
