Title: Climate change and the emergence of vector-borne diseases in Europe: case study of dengue fever

Version: 2 Date: 30 June 2014

Reviewer: Luca Busani

Reviewer's report:

the authors have addressed all my comments, I'm still in favor of my title version but is up to the authors this decision, that doesn't affect the decision on the manuscript.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
