Reviewer's report

Title: A reappraisal of the quantitative relationship between sugar intake and dental caries: the need for new criteria for developing goals for sugar intake.

Version: 3 Date: 10 August 2014

Reviewer: John Cummings

Reviewer's report:

No further comments

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

No competing interests although I am a member of the WHO Nutritional Guidelines Advisory Group (NUGAG), which has recently published draft guidelines for sugars intake.
