Reviewer’s report

Title: An update on prevalence and associated factors of Metabolic Syndrome in rural Northeast China

Version: 2 Date: 9 June 2014

Reviewer: Josefina Romaguera

Reviewer’s report:

The manuscript should have minor revisions. Mainly by a scientific editor, since some spaces are confusing. Starting a sentence with number, punctuations which should be revised and order of Abbreviations in the order of appearance in the tex.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests: I declare that I have no competing interests. I have no conflict of interest. I have not received any reimbursement related to this topic. I don't own any stock or shares which relates to this paper. I'm not applying for any patent.
