Reviewer's report

Title: Varicose Veins in Hairdressers and Associated Risk Factors: A Cross-sectional Study

Version: 7  Date: 20 June 2014

Reviewer: Hristina D Vlajinac

Reviewer's report:

Since Chao-Lin Chen and How-Ran Guo, the authors of the manuscript "Varicose Veins in Hairdressers and Associated Risk Factors: A Cross-sectional Study", MS: 7835802111109524, do not agree with the reviewers how should analyse data presented in the paper, I think that the manuscript need to be seen by an expert statistician.

All minor essential revisions were made with the exception of comment 12 which was leaved to the Editor to decide.

Level of interest: An article of importance in its field

Quality of written English: Acceptable
