Title: The New Middle Level Health Workers Training in the Amhara Regional State of Ethiopia: Student's Perspective.

Authors:

Haileyesus Getahun (ghaileyeye@yahoo.com)
Hanna Yirga (hanayirga@hotmail.com)
Daniel Argaw (daniargaw@hotmail.com)

Version: 3 Date: 20 Aug 2002

Reviewer: Prof James Rourke

Level of interest: A paper whose findings are important to those with closely related research interests

Advice on publication: Accept after discretionary revisions

The authors have done a major revision and have addressed the concerns that I raised regarding each of the sections. This paper will be of interest to those who are involved in programs to educate and utilize field health workers in under-developed and developing countries.
