Reviewer's report

**Title:** An outbreak of Salmonella enteritidis phage type 34a infection associated with a Chinese restaurant in Suffolk, United Kingdom.

**Version:** 2  **Date:** 24 August 2004

**Reviewer:** Marc-Alain A Widdowson

**Reviewer's report:**

General
The reviewers have satisfactorily addressed most of the suggested revisions.

-------------------------------------------------------------------------------

**Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)**

-------------------------------------------------------------------------------

**Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)**

-------------------------------------------------------------------------------

**Discretionary Revisions (which the author can choose to ignore)**

-------------------------------------------------------------------------------

**What next?:** Accept without revision

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No

**Declaration of competing interests:**
None
