Reviewer's report

Title: Females don't have more injury road accidents on Friday the 13th

Version: 3 Date: 11 October 2004

Reviewer: Francesca Valent

Reviewer's report:

General
The clarity of the manuscript was improved and some details were added which allow a better understanding of the study.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
-

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
-

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
-

-----------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests
