Reviewer's report

Title: Association between mortality from suicide in England and antidepressant prescribing: an ecological study

Version: 2 Date: 30 November 2004

Reviewer: Andrea Mant

Reviewer's report:

General

I think the authors have addressed all my points satisfactorily.

-------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
