Reviewer’s report

Title: Diet Induced Weight Loss Accelerates Onset of Negative Alliesthesia in Obese Women

Version: 8 Date: 1 September 2005

Reviewer: Eric Doucet

Reviewer’s report:

General

The authors have satisfactorily answered the remaining queries.

-----------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable
