Reviewer's report

**Title:** Epidemiology of episodic adenolymphangitis: a longitudinal prospective surveillance among a rural community endemic for bancroftian filariasis in coastal Orissa, India

**Version:** 2  **Date:** 23 February 2005

**Reviewer:** Kapa D Ramaiah

**Reviewer's report:**

I have carefully gone through the authors’ response to the queries made by me and the contents of the revised manuscript. The revision made by the authors is satisfactory and in accordance with the suggestions made to them. Hence, I recommend acceptance of the paper for publication.

**What next?:** Accept without revision
