Reviewer’s report

Title: DOTS improves treatment outcomes and service coverage for tuberculosis in South Ethiopia: a retrospective trend analysis

Version: 2 Date: 21 May 2005

Reviewer: Thomas R Frieden

Reviewer’s report:

General
No comments.

******************************************************************************

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
Comments have been addressed.

******************************************************************************

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
Might benefit from some editorial improvements, but understandable as revised.

******************************************************************************

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable
