Reviewer's report

Title: Effectiveness of different methods of health education: A comparative assessment in a scientific conference

Version: 2 Date: 8 August 2005

Reviewer: Kristi Ferguson

Reviewer's report:

General

------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached) none required -- authors have responded to previous comments

------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct) none required

------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore) none required

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
