Reviewer's report

Title: Does population screening for Chlamydia trachomatis raise anxiety among those tested? Findings from a population based chlamydia screening study

Version: 2 Date: 28 March 2006

Reviewer: Veerakathy Harindra

Reviewer's report:

General
I am satisfied with the revision made by the authors

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable
