Reviewer's report

Title: WHO Systematic Review of Prevalence of Chronic Pelvic Pain: a neglected reproductive health morbidity

Version: 2 Date: 30 October 2005

Reviewer: Cindy Farquhar

Reviewer's report:

General

Middle Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

No reference list was provided which made it impossible to adequately referee. Suggest authors resend with reference list and then I can referee.

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes
