Reviewer’s report

Title: Demographic, risk behaviour and personal network variables associated with prevalent hepatitis C, hepatitis B, and HIV infection in injection drug users in Winnipeg, Canada.

Version: 2 Date: 25 July 2006

Reviewer: V. Anna Gyarmathy

Reviewer’s report:

General

The authors spent a great deal of effort updating the paper, and the manuscript has improved considerably.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

none

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

none

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

none

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
