Reviewer's report

Title: Percutaneous injuries among dental professionals in Washington State

Version: 4 Date: 25 August 2006

Reviewer: Elisabeth BOUVET

Reviewer's report:

General

After reading the new version of the paper on needlestick injuries among dental health care workers, I agree with a publication without revision.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision
