Title: Assessment of data quality in a multi-centre cross-sectional study of participation and quality of life of children with cerebral palsy

Version: 2 Date: 17 October 2006

Reviewer: David L Streiner

Reviewer’s report:

General
I believe the authors have addressed all of my concerns and those of the other reviewer.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
