Reviewer's report:

General
The manuscript by Virginia Lope et al (Municipal mortality due to thyroid cancer in Spain) is substantially improved after the authors’ revision.

It can be accepted without revision, even if I confirm that the article is interesting only for specialists in this field.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
