Reviewer’s report

Title: Predicting Smear Negative Pulmonary Tuberculosis with Classification Trees and Logistic Regression: a cross-sectional study

Version: 2  Date: 14 December 2005

Reviewer: Pierre Tattevin

Reviewer’s report:

General

Obviously, the authors took into account all the revisions suggested by the 3 reviewers. I don't have any additional revision to suggest, and I think this interesting paper can now be accepted without further alterations.

Yours sincerely,

Pierre Tattevin

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable
