Reviewer's report

Title: Adequate sleep among adolescents is positively associated with health status and health-related behaviors

Version: 4 Date: 13 February 2006

Reviewer: Michikazu Sekine

Reviewer's report:

General

The authors have thoroughly and thoughtfully replied to all the comments made on the previous version of their manuscript. The paper is now suitable for publication.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
