Reviewer's report

Title: Contribution of main causes of death to social inequalities in mortality in the whole population of Scania, Sweden

Version: 3 Date: 20 February 2006

Reviewer: Jean Adams

Reviewer's report:

General

The authors appear to have addressed all my previous comments.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

There are a few grammatical errors throughout the text and the authors, or others, may want to carefully read through the final draft to 'copy edit'.

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published
