Reviewer's report

Title: Variations in influenza vaccination coverage among the high-risk population in Sweden in 2003/4 and 2004/5: a population survey

Version: 1 Date: 19 March 2007

Reviewer: Rodrigo R Jimenez Garcia

Reviewer's report:

General
This manuscript provides relevant information about influenza vaccination coverage in Sweden for two consecutive influenza vaccine seasons. The manuscript is well written and provides information about the trends and factors associated with vaccine uptake. The introduction section is adequate, the methods are correct and well described, the results and tables are clear and the conclusions are coherent.

-------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

-------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

-------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept without revision
