Reviewer’s report:

General
The paper is much improved since revision. I would encourage the authors to carefully reread the text as I noticed several typographical errors.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions
