Reviewer's report

Title: How many people have had a myocardial infarction? Prevalence estimated using historical hospital data.

Version: 3 Date: 15 May 2007

Reviewer: Charles Maynard

Reviewer’s report:

General

-----------------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------
What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
