Reviewer’s report:

General

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

1. On page 6, the authors state (line 8) that the study was designed to address three primary research questions and then list 4. The analyses do relate to the four questions listed, so the number three should be changed.

2. On that same page, line 12, insert "are" between factors that and associated.

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
