Reviewer's report

Title: High mortality during tuberculosis treatment does not indicate long diagnostic delays in Vietnam: a cohort study

Version: 4 Date: 31 July 2007

Reviewer: Bernt Lindtjorn

Reviewer's report:

General

The authors have addressed my comments in the initial review well.

-----------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

None

-----------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

None

-----------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
