Reviewer's report

**Title:** Use of smokeless tobacco among groups of Pakistani medical students - A cross sectional study.

**Version:** 3  **Date:** 26 July 2007

**Reviewer:** Tibor Baska

**Reviewer's report:**

General
Authors made some changes improving their contribution, however, one methodological information should be still added.

-------------------------------------------------------------------------------

**Major Compulsory Revisions** (that the author must respond to before a decision on publication can be reached)

From methodological point of view would be very important to describe briefly the term "convenience sampling".

-------------------------------------------------------------------------------

**Minor Essential Revisions** (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

**Discretionary Revisions** (which the author can choose to ignore)

What next?: Accept after minor essential revisions

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
I declare that I have no competing interests.
