Reviewer's report

Title: The New Zealand Asthma and Allergy Cohort Study (NZA2CS): Assembly, Demographics and Investigations

Version: 3 Date: 23 January 2007

Reviewer: Guy Marks

Reviewer's report:

General

The authors have satisfactorily addressed the issues I raised in my initial review.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
