**Version:** 2  **Date:** 10 August 2007

**Reviewer:** Marie Hasselberg

**Reviewer's report:**

**General**

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

I am satisfied with the revision made in the manuscript and suggest that the paper will be accepted. I would only like to add one minor comment:

The first sentence in the Methods section is fragmented, should be revised to a full sentence.

**What next?:** Accept after discretionary revisions

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
