Reviewer’s report

Title: Validating estimates of problematic drug use in England

Version: 2 Date: 26 March 2007

Reviewer: George S Yacoubian

Reviewer’s report:

General

The revisions suggested by this reviewer seem to be addressed. I still, however, have concerns regarding the usefulness of these findings to the scientific community. That said, I will defer to the other reviewer(s) and editorial board on this matter.

There are several minor stylistic, grammatical, punctuation, and spelling errors throughout, which I trust will be addressed by the journal’s editorial staff.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
