Reviewer's report

Title: Factors associated with good self-rated health of non-disabled elderly living alone in Japan: a cross-sectional study

Version: 2 Date: 28 September 2007

Reviewer: Shahin Shooshtari

Reviewer's report:

General
I am satisfied with the responses provided and changes made to the manuscript. In my opinion, the revised manuscript is in good shape. I will recommend acceptance of paper for publication.

----------------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
