Reviewer's report

Title: Predicting the Unpredictable: The Evolution of Drug Resistant Strains In the Presence of the Use of Antiviral Drugs

Version: 1 Date: 17 May 2007

Reviewer: Guy de Bruyn

Reviewer's report:

General

This paper reports the proceedings of a workshop on an important topic. However, the paper requires careful copy editing for language usage.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
