Reviewer’s report

Title: Health inequities: lower socio-economic conditions and higher incidences of intestinal parasites

Version: 4 Date: 22 October 2007

Reviewer: mustafa ulukanligil

Reviewer's report:

General
I indicated several points to improve the papers in my previous comment. I see the authors did it well.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
