Reviewer's report

Title: The effects of alcohol consumption, psychological distress and smoking status on emergency department presentations in New South Wales, Australia

Version: 2 Date: 16 March 2007

Reviewer: Brenda M Booth

Reviewer's report:

General. Authors have modified the manuscript in accordance with my review and have provided acceptable justification for the response rate and the statistical methods.

-----------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
