Reviewer’s report

Title: A descriptive study of mastitis in Australian breastfeeding women: incidence and determinants

Version: 2 Date: 24 March 2007

Reviewer: Suzanne Filteau

Reviewer’s report:

This is a re-review of this paper. The authors have addressed all my previous concerns and apparently those of the other referee so I now consider this paper suitable for publication.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare I have no competing interests.
