Reviewer's report

Title: Epidemiology and health economic analysis of injury in Shandong Province, China

Version: 6 Date: 24 October 2007

Reviewer: Peter Byass

Reviewer's report:

General

Thank you for responding to the points that I raised in my initial review.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

There are very many small language errors, which I do not have time to point out individually. You will need to have the manuscript professionally edited to come up to the required standard for publication.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after minor essential revisions

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
