Title: What they fill in today, may not be useful tomorrow: Lessons learned from a study of medical records at the Women hospital in Tabriz, Iran

Version: 2 Date: 11 March 2008

Reviewer: Petra Knaup

Reviewer's report:

I have suggestions for minor essential revisions. Since these are details to specific sentences of the paper, I added the comments directly in the paper which I will send by e-mail.

In table 1 it should be made clear that the numbers for Group A to D represent completeness. It would also be interesting to have row and column percentages.

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable
