Reviewer's report

Title: Prevalence of hearing loss induced by high sound pressure levels among people working with sound systems and general population in Brazil: a cross-sectional study.

Version: 1 Date: 23 September 2007

Reviewer: Esko Matti Toppila

Reviewer's report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

See the e-mail I sent to the editor.

What next?: Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

Level of interest: An article of limited interest

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, and I have assessed the statistics in my report.
