Reviewer's report

Title: Predictors of overweight and obesity in five to seven year old children in Germany: results from cross-sectional studies

Version: 2 Date: 24 April 2008

Reviewer: Cristina Padez

Reviewer's report:

Minor points:
The authors addressed almost all the changes that I suggested. But, in the abstract it is my belief that they should not mention the values of the cut-offs, instead they must refer if these are IOTF cut-off or which ones it is.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
