Reviewer's report

Title: Assessment of measles Immunity among Infants in Maputo City, Mozambique.

Version: 3 Date: 10 October 2008

Reviewer: Julie Cliff

Reviewer's report:

Major compulsory revisions:
The authors have responded to my suggestions. However they have made a factual error, which requires a minor revision (see below).

Minor essential revision:
The 1979 measles vaccination campaign targeted children 6 months to 3 years, not 9 months to 5 years.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
