Reviewer's report

**Title:** Poor growth outcomes are associated with inadequate early breastfeeding practices in Eastern Uganda: a community-based cross-sectional study

**Version:** 1  **Date:** 25 March 2008

**Reviewer:** Mercedes de Onis

**Reviewer's report:**

This is a very well written paper with clear take home messages. The section outlining the limitations of the study are particularly good.

I do not have any suggestions for revisions. The paper reads well as is.

**What next?**: Accept without revision

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
