Reviewer's report

Title: Physical activity, ethnicity and sociodemographic factors. Three year follow-up of 15 years olds in Oslo, Norway

Version: 2 Date: 13 October 2008

Reviewer: Wendy Brown

Reviewer's report:

The authors have responded to all my concerns and made major changes to all aspects of the paper. I really like the way they have now linked the aims, methods and results, and particularly like the new figure.

I have made some very minor edits to the attached version of the paper to correct minor grammatical errors and improve readability.

I think it can now be accepted without further revisions (more below)

What next?

----------

Based on your assessment of the validity of the manuscript, what do you advise should be the next step?

- Accept without revision

- Level of interest

-----------------------

- An article of importance in its field

Quality of written English

------------------------

- Acceptable

Statistical review

------------------------

- No, the manuscript does not need to be seen by a statistician.
