Reviewer's report

Title: Prevalence of HIV, Herpes Simplex Virus-2, and Syphilis in Male Sex Partners of Pregnant Women in Peru

Version: 2 Date: 14 January 2008

Reviewer: Catherine Enel

Reviewer's report:

I have now looked at the revised manuscript of "Prevalence of HIV, Herpes Simplex Virus-2, and Syphilis in Male Sex Partners of Pregnant Women in Peru", written by Jesse L Clark, Kelika A Konda, Cesar V Munayco, Monica Pun, Andres G Lescano, Segundo R Leon, Jose Pajuelo, Luis Suarez Ognio, Jeffrey D Klausner, Thomas J, Coates and Carlos F Caceres.

As all the criticisms from your referees have been answered, and the manuscript improved, I consider the second version of this article suitable for publication.
