Reviewer's report

Title: Undocumented migrants lack access to pregnancy care and prevention

Version: 6 Date: 15 February 2008

Reviewer: Brian Gushulak

Reviewer's report:

I appreciate the authors' consideration and response to the editorial comments. Their revisions and changes to both the text and analysis have clarified the presentation of what are important observations.

I also think that the revisions will assist readers less familiar with current patterns and process of migration to Switzerland in better understanding some of the resulting health and medical challenges.
