Reviewer's report

Title: Child sexual abuse in southern Brazil and associated factors: a population-based study

Version: 3 Date: 20 March 2009

Reviewer: Alfgeir Logi Kristjansson

Reviewer's report:

This manuscript has much improved. I greet the authors for their work. I would, as a last input, advice them to have the ms carefully read over by a native english speaker- just for spelling and grammar. Otherwise I am ready to accept the ms for a formal publication in BMC Public Health.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
