Reviewer's report

Title: Estimating the regional distribution of men who have sex with men (MSM) based on Internet surveys and calculation of MSM population-specific incidence of sexually transmitted infections

Version: 2 Date: 27 February 2009

Reviewer: John de Wit

Reviewer's report:

The authors have adequately addressed the comments and I have no issues to raise regarding the manuscripts.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
