Reviewer's report

Title: Estimating the regional distribution of men who have sex with men (MSM) based on Internet surveys and calculation of MSM population-specific incidence of sexually transmitted infections

Version: 2 Date: 22 February 2009

Reviewer: Onno de Zwart

Reviewer's report:

As indicated in my review of the other manuscript both manuscripts have improved greatly and are interesting.

One minor issue
- Page 7. It is not clear whether all who dropped out during the online procedure were excluded from the analysis. Where any analyses done on regional distribution of those who dropped out of the surveys.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
