Reviewer’s report

Title: The denominator problem: Estimating MSM-specific incidence of sexually transmitted infections and prevalence of HIV using population sizes of MSM derived from Internet surveys

Version: 1 Date: 27 February 2009

Reviewer: John de Wit

Reviewer's report:

The authors have adequately addressed the comments and I have no issues to raise regarding the manuscripts.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
