Reviewer’s report

Title: A Systematic Review of Post-Deployment Injury-Related Mortality Among Military Personnel Deployed to Conflict Zones

Version: 4 Date: 17 March 2009

Reviewer: Hollie Thomas

Reviewer’s report:

I note that the authors have incorporated many of my recommendations into the revised manuscript by providing much clearer detail in areas of the methodology and some careful re-wording to remove any possible ambiguity. I think the paper now reads very clearly and will provide a helpful overview.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
